Impact indicators

Member of Department of Educational Research and co-author of one of its two REF 2021 impact case studies. The REF result was that 100% of the Department's research impact was rated as 4 star; 'outstanding':

The relevant case study was '*Evaluating and enhancing the quality of learning and teaching in higher education*'. It showed how the Department's research (including mine) significantly enhanced the quality of teaching and learning in higher education (HE) nationally and internationally by:

shaping national policies aimed at evaluating and enhancing learning and teaching internationally
informing the development of institutional and practitioner approaches to the enhancement and
evaluation of learning and teaching internationally.

My co-authored book (2001) *Academic Tribes and Territories* is well-known in the field and has over 10,000 citations.
